

LEONARDO ALBORNOZ

FRONT-END DEVELOPER

[E-mail](#) | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [AngelList](#) | [Medium](#) | [Portfolio](#)

SUMMARY

Passionate Front-end Developer, looking to pursue a successful career in software development, where I can help deliver IT services and solutions through brainstorming and frequent feedback to impact internal and external stakeholders positively. In previous roles, I decreased gross waste by 60% and ensured 98% on-time project completion. Relevant skills include Ruby, Java, Rails, React, and Redux.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3, SASS, TypeScript.

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, Jest, TDD, Chrome Dev Tools.

Professional: Remote Pair-Programming, Teamwork, Mentoring, SCRUM, Kanban.

EXPERIENCE

SOFTWARE DEVELOPER

Remote

Territorio Digital S.A.S - Contract

September 2022 – November 2022

- Studying Google's ads API to analyze data and convert it into pdf and JSON.

FULL-STACK WEB DEVELOPER

Remote

Open-Source/Freelance

September 2019 – Present

- RentUrTech** – React application provides users with an environment to book specific products for a set amount of time. Built with: JavaScript, React-Redux, Ruby on Rails, and SASS. [Live Version](#) - [Source Code](#)
- Bookstore** – This is a web App that displays a list of books and fetches an API. Built with React, Redux, Typescript, and SASS. [Live Version](#) - [Source Code](#)

CODE REVIEWER

Remote

Microverse - Part-time

March 2022 – September 2022

- Ensured that the reviews were consistent through the evaluation of code using the criteria and tools provided to save time and ensure the quality of their work meets the standards.
- Spotted issues in the code concerning both the broader codebase and the product's overall design to provide objective feedback.
- Fostered a positive culture around reviews by appreciating team members and focusing on catching bugs regardless of who introduced the error, hence improving collaboration and relationships.

EDUCATION

Remote Full Stack Web Development Program, Full-Time

Remote

MICROVERSE

November 2021 – July 2022

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Developed good communication skills by holding daily standups and weekly retrospective team meetings.
